B. NORMAL ACTIVITIES1. The Integrated Program

DDS (a) The 6½ weeks course on Communism concluded on a high note. Even after the last examination, the JOT's continued to work hard and with interest. Their comments almost uniformly have been to the effect that the Course was very profitable to them, well organized, strongly challenged their abilities, and given by men for whose knowledge they had great respect. We have gotten off to a fine start.

K1 (b)  reviewed the JOTP files of each member of his group. Assessments on two of these had not yet been written.

K1 (c) The first phase of the American Heritage has been well received.  did not inspire the men as did the other lecturers. At present, the men seem to be anxious to get some reading done.

K1 (d)  has been restricted to Departmental Duties Only by the Medical Office. The details are given under "Troublesome Matters".

K1 (e)  has been called as a witness in a manslaughter case and will be absent from class for at least one day. It now appears that the only time  can take his active reserve duty will be 5 to 16 January, plus 19 January.

2. We have just seen one highly qualified candidate who appears to be a first-rate subject for covert recruitment. The appropriate division is interested and has consented to help in the development of this individual if our investigation indicates that we wish to pursue the matter.

3. Reports from OC #7 for the work concluded 14 November 1958 were received this week. Only three JOT's were commented on. [ ] of the Internal Program is having difficulty and is being given special attention. [ ] previous "Poor" now seems no cause for concern. [ ] has done a consistently good job. All others are Satisfactory. [ ] has shown significant improvement and is now Satisfactory.

4. [ ] has raised the question of how best to handle the processing of candidates for the 1959 Class. In order to get the best individuals possible, the JOTP would like not to commit itself on marginal cases early in the recruiting season. On the other hand, the Office of Personnel is anxious to get decisions at the earliest possible moment. We are studying this matter and hope to have a full report within the week.

K1  
5. [ ] has the names of 34 JOT's who are scheduled to be transferred to using divisions during December or January. It is expected that nearly all of these transfers will become effective within that time.

7. Interviews were held with 53 JOT's.

8. Four candidates were interviewed for the external phase of the Program.

9. An action was cut on the one file that was received.

10. Temporary Actions: [ ]

Nothing to report.

D. TROUBLESOME MATTERS

1. [ ] reports that Full Duty/General granted on JOT [ ] has been rescinded and he is now eligible only for departmental duties. His bleeding tendency on slight injury (which is not hemophilia) was not properly diagnosed by the examining doctor. It was, however, detected by the Air Force when he went to enlist. [ ] is now undergoing tests by a specialist and it is expected that within two weeks to a month a decision will be forthcoming on his acceptability for the Program. It may be necessary to request a waiver or to transfer him out of the Program. Dr. [ ] has been apologetic about the error. We will await a report from him before taking further action.

2. [ ] has run into another snag on his assignment overseas. He was originally scheduled to go to [ ] in April 1958, the man whom he was to replace extending for one year. He was therefore given Elementary German, full time, with the idea of preparing him to take the position in [ ] in September. This fell through and he was put into full time Intermediate German to prepare him more fully to take over the original job in [ ] in April 1959. Word has now come that this is inappropriate. He has seen [ ] who points out that, security-wise, the assignment was not proper. At the moment, EE has nothing in mind for him as we understand the matter. [ ] is discouraged. I have not had opportunity to see [ ] since this was reported to me Tuesday evening but will do so at the earliest moment.

3. FE Division says they do not have an appropriate cover slot for [ ] and therefore will not take him. There is a strong possibility that he will be acceptable to WE Division for FI work which is what he is anxious to do.
